Hard Skill

Programming : Python, PHP, JavaScript.
Libraries : Keras, TensorFlow, Pandas, Numpy .
Databases : MySql.
Document Creation : Microsoft Office, LaTex.
Tools : Google Colab, Kaggle.

Soft Skill

Observation
Decision making
Communication
Multi-tasking

Languages

Bangla
Native

English
Advanced

About Me

My passion lies in software engineering, and I am eager to contribute to innovative projects while continuously learning and growing in this dynamic field

Research

Thesis : Wood Species Identification in Bangladeshi Forests Using Deep-learning.

Developed and implemented deep-learning algorithms for wood species identification in Bangladeshi forests. Leveraged convolutional neural networks to analyze images and accurately classify wood species, contributing to conservation efforts and sustainable forestry management.

Project

TextMessenger: A web-based chat application.
https://github.com/Maynulislam98/TextMessenger-application

BAUST_University management_System
https://github.com/Maynulislam98/-BAUST-management-system

Blood Bank Management System.
https://github.com/Maynulislam98/BloodBank-management-system

Old Car Price Prediction using Machine Learning.

Utilized machine learning techniques to predict the prices of old cars, leveraging historical data and features such as mileage, model year, brand, and condition. Developed predictive models using regression algorithms and fine-tuned them for optimal performance

Certifications

J.P. Morgan's Software Engineering virtual experience program.
💎 Forage

Cognizant's Artificial Intelligence on Forage.
💎 Forage

Education Background

B.Sc. Engineering in Computer Science and Engineering
Name of Institution : Bangladesh Army University of Science and Technology
Passing Year : jan. 2020 – jan. 2024

Higher Secondary School Certificate (H.S.C)
Name of Institution : Collectorate school and college
Passing Year : 2018

Secondary School Certificate (S.S.C)
Name of Institution : Bir Uttam Shahid Samad High school .
Passing Year : 2016
